Name of artwork

Weeping Woman

Name of artist, year and size.

**Pablo Picasso.
1939 (60 x 49)**

Why did you choose this artwork?

I like the bright and vibrant colours and think the angles he used to paint the woman are very interesting. I think its one of the best cubist pieces.

General information and any interesting facts.

Dora Maar was Picasso's mistress from 1936 until 1944 and is the subject of this painting. In the course of their relationship Picasso painted her in a number of guises, some realistic, some benign, others tortured or threatening. Picasso thought that all women were "suffering machines"
